

Extended Ideas is now in Birmingham

written by Stuart Collumbell | 25 May 2022

New to 2021, Extended Ideas is now helping and supporting homeowners in the Birmingham area to plan and design their house extensions by showing you your ideas in 3D from only £895.

Extended Ideas is coming to Birmingham

Since 2013, I have produced 3D architecture plans around Derby and Nottingham; and more recently in Tamworth and Lichfield. Now I feel Birmingham homes should benefit from my design visualisation service.

Is Extended Ideas suited to you?

I focus on quality space; getting the flow and room layout the best they can be whilst working with my clients' ideas. I am not purely about adding more space to a home. Some of my extension projects turn out to be smaller (and therefore less costly) through the use of good design.

"The two design options were so much better than anything we could have imagined. You've made us much more confident about which way to extend our home."

25th November 2020, Mrs Craig, Birmingham.

"Stuart spent time to understand what we wanted and his room layout plans were exactly what we were hoping for. He has a great personal touch and is really easy to have in our home."

Lisa & Gary Shapcott, Chaddesden, Derby, 20th October 2019

Take a look at my website. If you like what you see and are planning a house extension, loft conversion or any other type of home modification, call Stuart on 01332 416 448. Alternatively, fill in my enquiry form to arrange a home visit.
